DAYS OF PRAYER: THANKSGIVING DAY AND NEW YEAR'S DAY

BY THE PRESIDENT OF THE UNITED STATES
OF ALIERICA

#### A PROCLAMATION

"It is a good thing to give thanks unto the Lord." Across the uncertain ways of space and time our hearts echo those words, for the days are with us again when, at the gathering of the harvest, we solemnly express our dependence upon "Almighty God.

The final months of this year, now almost spent, find our Republic and the nations joined with it waging a battle on many fronts for the preservation of liberty

In giving thanks for the greatest harvest in the history of our nation, we who plant and reap can well resolve that in the year to come we will do all in our power to pass that milestone; for by our labors in the fields we can share some part of the sacrifice with our brothers and sons who wear the uniform of the United States.

It is fitting that we recall now the reverent words of George Washington,

"Almighty God, we make our earnest prayer that Thou wilt keep the United States in Thy holy protection",

and that every American in his own way lift his voice to Heaven.

I recommend that all of us bear in mind this great Psalm:

"The Lord is my shepherd; I shall not want.
"He maketh me to lie down in green pastures: he leadeth me beside the still waters.
"He restoreth my soul; he leadeth me in

the paths of righteousness for his name's sake.
"Yea, though I walk through the valley of
the shadow of death, I will fear no evil: for

the shadow of death, I will fear no evil: for thou art with me; thy rdd and thy staff they comfort me.
"Thou propagate a table before me in the

"Thou preparest a table before me in the presence of mine enemies: thou anointest my head with oil; my cup runneth over.

"Surely goodness and mercy shall follow me all the days of my life: and I will dwell in the house of the Lord for ever."

Inspired with faith and courage by these words, let us turn again to the work

that confronts us in this time of national emergency: in the armed services and the merchant marine; in factories and offices; on farms and in the mines; on highways, railways and airways; in other places of public service to the Nation; and in our homes.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby invite the attention of the people to the joint resolution of Congress approved December 26, 1941, which designates the fourth Thursday in November of each year as Thanksgiving Day; and I request that both Thanksgiving Day, November 26, 1942, and New Year's Day, January 1, 1943, be observed in prayer, publicly and privately.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this eleventh day of November, in the year of our Lord nineteen hundred [seal] and forty-two, and of the Independence of the United States of America the one hundred and sixty-seventh.

## FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL, Secretary of State.

Chapter VIII—Sugar Agency

PART 802-SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE PRICES FOR THE 1942 CROP OF VIRGIN ISLANDS SUGARCANE (REVISED)

Whereas section 301 (d) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

That the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll racted to pay under either purchass or toll agreements, for any sugar beets or sugar-cane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public bearing.

Whereas the Secretary of Agriculture, on March 26, 1942, held a public hearing at Christiansted, St. Croix, Virgin Islands, for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable prices for the 1942 crop of Virgin Islands sugarcane:

Now, therefore, I, Grover B. Hill, Assistant Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearing and all other information before me, do hereby make the following determination with respect to the requirements of section 301 (d) of the said act:

§ 802.53 Fair and reasonable prices for the 1942 crop of Virgin Islands sugar-cane. Processors who, as producers, apply for payment under the Sugar Act of 1937, as amended, shall be deemed to have complied with the provisions of section 301 (d) of said act, if the requirements specified below have been met:

(a) Purchased sugarcane is paid for at the rate of not less than the f. o. b. mill value of 6 pounds of 96° raw sugar per hundredweight of such sugarcane. The average New York price of 96° raw sugar, for the week (or such other period as may be agreed upon) in which sugarcane was delivered, less all costs involved

9418

9418

9419

in the marketing of such sugar (other than bags and bagging, storage in company warehouses, war risk insurance, or any item of expense incurred in the marketing of such sugar which is reimbursed in whole or in part by the federal government or any agency thereof) shall be deemed as the f. o. b. mill value of such sugar.

(b) There is paid, per hundredweight of purchased sugarcane, an amount equal to one-half of the excess, if any, of the net proceeds derived from the sale of blackstrap molasses produced from a hundredweight of sugarcane of the 1942 crop over the net proceeds from the sale of blackstrap molasses produced from a hundredweight of sugarcane from the 1941 crop.

(c) The cost of transportation of purchased sugarcane up to 3 cents per hundredweight, shall be absorbed by the processor. (Sec. 301, 50 Stat. 910; 7 U.S.C., 1131)

This determination supersedes the "Determination of Fair and Reasonable Prices for the 1942 Crop of Virgin Islands Sugarcane", issued July 21, 1942.

Done at Washington, D. C., this 13th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

§ 36.5a Application of regulations—
(a) General. The following general principles will govern in determining which regulations have application to any claim:

(4) Claims resulting from the operation of aircraft:

(i) Not exceeding \$500, exclusively for damage to persons, involving negligence, will be considered under the provisions of §§ 36.12–36.13.

(ii) Not exceeding \$500 for damages to private property, or to persons and private property, but not involving negligence, will be considered as within the scope of §§ 36.12-36.13.

(iii) Not exceeding \$1,000 for damage to private property, involving negligence, if the negligence occurred within the scope of the employment, will be considered as within the provisions of \$\$ 36.14-36.14b.

(iv) Which exceed \$500, but do not exceed \$1,000, for damage to private property, and do not involve negligence, will be considered under the provisions of §§ 36.9-36.11 or §§ 36.21-36.23, whichever is applicable.

§ 36.7a Claims, settlement of which is not provided for by any specific law. Claims may arise which on account of statutory limitations, or for other reasons, do not come within the provisions of any law governing settlement and payment. All such claims will be referred to a board of officers for investigation and report in a manner similar to that prescribed in § 36.7, with such modification as the features of the particular cases may warrant. Such claims will then be forwarded to the Chief of Finance for examination, administrative action, and submission to the Secretary of War. (R.S. 161; 5 U.S.C. 22) 9, AR 35-7020, October 14, 19421

AR 100-61, Sept. 15, 1942]
(b) Authority of local officers. (1) The following classes of leases are authorized to be made by local commanders without approval by higher authority, when funds are available and the rental consideration conforms to the prevailing rate in the locality concerned. [Par. 11,

AR 100-61, Sept. 15, 1942]
(i) Leases for hire of camp sites, buildings, and grounds for troops; office and storage space for small detachments; garage space; and space for recruiting stations; provided the premises are to be occupied not longer than 3 months, and the rental for the entire period of occupancy is \$500 or less; or

(ii) Commanding generals of defense commands within the continental limits of the United States, through their rents and claims boards or other units designated by them, are authorized to negotiate leases and agreements involving rentals not in excess of \$500 per annum where immediate possession or expeditious action is necessary to acquire the use of premises for the activities of their commands, and are charged with the processing of all instruments, including renewals, terminations, and payments of all rentals thereunder. Leases and renewals will conform with applicable laws, regulations, and provisions of the Real Estate Manual of the Chief of Engineers.

(2) Leases in subparagraph (1) (1) and (ii) above may be by informal written agreements, unless the rental for the period exceeds \$100, in which case execution on Standard Form No. 2, (Lease Between/and the United States of America) is preferable.

(i) Informal written agreements may be worded substantially as follows:

(Place)

\$\_\_\_\_ per month, or proportionate part thereof for the time of occupancy.

(Signature of property owner) (ii) The following certificate should be indorsed on informal agreements: I certify that I have this day entered into an informal agreement with \_\_\_\_\_ cover-

(Name)

(Grade and organization)

(c) Authority of Chief of Engineers. Except as provided in paragraphs (a) and (b) of this section, all leases and similar instruments must be approved by the Chief of Engineers or his authorized representative. [Par. 12, AR 100-61, Sept. 15, 1942.]

(d) Preparation and execution of instruments—(1) Forms to be used. Except as provided in paragraphs (a) and (b) (2) of this section, or unless otherwise authorized by the Chief of Engineers, all leases will be prepared and executed on Standard Form No. 2. (Lease Bétween/and the United States of America.)

(2) Alterations, improvements, and repairs. (i) As a rule, buildings will be selected that do not require any alterations, improvements, and repairs. Whenever the rent is more than \$2,000 per annum, alterations, improvements, and repairs which will become a structural part of the premises will not exceed 25 percent of the amount of the rent for the first year of the rental term, or for the entire rental term if less than 1 year. Amounts expended by the Government for repairs, etc., to premises occupied rent free or at a nominal rent, are to be regarded as rent.

(ii) Section 322 of the act of June 30, 1932, as amended, limiting the amount which may be paid for rent of leased premises and that which may be expended for repairs, etc., "where the rental to be paid shall exceed \$2,000 per annum," must be considered as applicable where premises are occupied rent free or at a nominal rental, if the amount proposed to be expended for repairs, etc., plus the nominal rental, if any, exceeds \$2,000.

(iii) Amounts in excess of \$2,000 proposed to be expended by the Government for repairs, etc., to premises occupied rent free or at a nominal rent, plus any nominal rent; must not exceed the 15-percent-of-the-fair-market-value rental limitation contained in section 322 of the act of June 30, 1932, as amended, which becomes applicable when the rent for leased premises exceeds \$2,000 per annum.

(iv) When premises are occupied under a lease covering a fraction of a year with the privilege of renewal, the first 12 months of occupancy constitute "the first year of the rental term" within the meaning of section 322 of the act of June 30, 1932, as amended, limiting the amount which may be expended by the Government for repairs, etc., to leased premises.

(v) The requirements contained in subdivisions (i) to (iv) above, are based on the provisions of section 322, act June 30, 1932 (47 Stat. 412) as amended by sec. 15, act March 3, 1933 (47 Stat. 1517; 40

U.S.C., 278a; M. L., 1939, sec. 957a. See 21 Comp. Gen. 906. However, the provisions of said section 322 as amended, "\* \* shall not apply during a war or a national emergency \* to such leases or renewals of existing leases \* \* as are certified by the Secretary of War \* \* or by such persons as he may designate, as covering premises for military, \* or or civilian purposes necessary for the prosecution of the war or vital in the national emergency." Act April 28, 1942 (Sec. I, Bull. 23, W. D., 1942).

(vi) The Chief of Engineers is designated to make certificates contemplated by the provisions of the above Act.

(3) Not to cover portions of two fiscal years. Except when specifically authorized in special cases, leases must not be executed to cover portions of two fiscal years, unless the rental consideration is \$1.00, and receipt is acknowledged.

(4) Option to renew. Since the term of the lease must be limited to a fiscal year, every effort will be made to obtain an option of renewal from year to year for the longest period of time compatible with the interest of the Government. When improvements are contemplated, said period will be for at least 25 years, or for the duration of the war and 6 months thereafter. If the lease contains a renewal privilege, the term of the renewal will begin on July 1.

(5) Option to purchase. If obtainable, the lease will include an option to purchase, with a provision for application of rental payments to the purchase price.

(6) Right of termination. A right to terminate or cancel the lease or any renewal upon a stipulated number of days' notice will be inserted in the lease where it is obtainable without increased rental.

(7) Title to buildings and improvements. Leases will contain a provision that buildings and improvements constructed by the United States, will remain the personal property of the United States, and that the United States will have the right to remove such buildings prior to or upon termination of the lease or renewal or extension thereof. Action will be taken to insure that buildings are so removed.

(8) Services. If heat, light, water, or other services are necessary, they will be furnished by the lessor when not otherwise obtainable at a lower cost, and the rental agreed upon will be expressed in the lease as including the services to be furnished.

(9) Lessor must have valid interest. Contracting officers will satisfy themselves, before executing leases, that the prospective lessor has such an interest in the premises as will insure the validity of the lease.

(10) Authority of lessor's agent. In executing leases, contracting officers will exercise great care to insure that the authority for the execution thereof on behalf of the owner by agents, trustees, etc., is adequate.

(11) Effective date. Original leases must take effect on the date the premises are first occupied. [Par. 14, AR 100-61, Sept. 15, 1942]

(e) Survey of premises upon taking possession. When possession of any

premises is taken for temporary use, the officer or other agent of the War Department taking possession will cause a careful survey and detailed examination of the premises to be made jointly with the owner or his authorized representative. A report of survey, showing the detailed condition of the premises and facilities, will be prepared and signed by both parties and placed with the original lease or agreement on file in the office of the Chief of Engineers. [Par. 17, AR 109-61, Sept. 15, 1942]

(f) Cancelation. (1) A lease may be canceled prior to the expiration date, if cancelation is authorized by its terms,

or if the lessor consents.

(2) Notice of cancelation will be prepared in triplicate. The lessor will be requested to acknowledge receipt on all three copies of the cancelation notice. If the lessor refuses or fails to do so, the officer serving the notice will certify thereon as to the fact, date, and method of service. [Par. 20, AR 109-61, Sept. 15, 1942]

(g) Vacation of premises—(1) Vacation. The premises will be vacated prior to date of expiration of lease or prior to the effective date of termination.

(2) Release; form used. Upon vacation of the premises, a release executed on forms prescribed by the Chief of Engineers will be obtained from the lesser

(3) Surrey; when required. If the release referred to above is not obtainable from the lessor, a report will be made after thorough survey of the property, detailing specifically all of the changes made in the premises while in the possession of the United States, including a separate estimate of the cost of restoring the property to the condition in which it existed when the United States first entered into possession as evidenced by the survey made under paragraph (e) of this section. If the lessor requires the Government to restore the premises as provided under the lease, and restoration is not possible or practicable, the lessor will be requested to execute a modified release detailing his exceptions to the condition in which the property is returned. He will also be requested to participate in, or indicate in writing his acceptance of, the survey mentioned above. The estimate of actual injuries to the premises will be made independently by the survey officer, who must possess qualifications, training, and experience which will enable him to qualify as an expert witness, in the event of litigation. [Par. 21, AR 100-61, Sept. 15, 1942]

(h) Sale of Government improvements to lessor—(1) Authority. Government improvements which have been installed on leased premises may, incident to the settlement of a claim for the restoration of the premises under the terms of the lease, be sold to the lessor at their fair market value. Before sale to the lessor of any improvements erected prior to April 6, 1917, or subsequent to March 3, 1921, an inspection report must be made by the Chief of Engineers or his duly authorized representative.

(2) Form of agreement. In such case the sale must be in the form of an agreement supplementary to the original lease, executed prior to its termination.

(3) Procedure prescribed by the Chief of Engineers. In cases involving the sale of Government improvements as authorized above, or in those cases in which particular requirements of restoration exist, the procedure will be as prescribed by the Chief of Engineers to meet the conditions in each particular case.

- § 52.5 Temporary use; how granted. There are three methods by which the temporary use of real estate under the control of the War Department may be granted: lease, easement, and license or permit. [Par. 1, AR 100-61, Sept. 15, 1942]
- § 52.6 Rights which may be granted by Secretary of War-(a) General. (1) The Secretary of War is authorized with or without advertising, to provide for the operation and maintenance of certain plants, buildings, facilities, utilities, and appurtenances thereto and, when he deems it necessary in the interest of the National Defense, to lease, sell or otherwise dispose of, any such plants, buildings, facilities, utilities, appurtenances thereto, and land, under such terms and conditions as he may deem advisable, and without regard to the provisions of section 321 of the act of June 30, 1932 (47 Stat. 412), which requires the consideration to be in money only. See secs. 1 and 5, act July 2, 1940, (54 Stat. 712; M. L., 1939, Supp. I, sec. 2216).
- (2) The above provisions applied only to the fiscal year ending June 30, 1941. They were first extended to cover the fiscal year ending June 30, 1942, and later to cover the period of the present war and 6 months thereafter, or until such earlier time as the Congress by concurrent resolution or the President by proclamation may designate. See sec. 9, act June 30, 1941 (55 Stat. 393; sec. 13, act June 5, 1942) (Bull. 27, 1942).
- (3) The Secretary of War may acquire any real property, temporary use thereof, or other interest therein, together with any personal property located thereon or used therewith, that shall be deemed necessary for military purposes, and may dispose of such property or interest therein, by sale, lease, or otherwise, in accordance with section 1 (b) of the act of July 2, 1940 (54 Stat. 712). See Second War Powers Act, 1942 (Public Law 507, 77th Cong.).
- (b) Leases. The Secretary of War is authorized, when in his opinion it will be for the public good, to lease for a period not exceeding five years, and revocable at any time, such property of the United States under his control, exclusive of mineral and phosphate lands, as may not for the time be required for public use. - (e) Pipe lines. The Secretary of War may grant easements for rights of way for gas, water, and sewer pipe lines, provided such grant is in the public interest and will not substantially injure the interest of the United States in the property affected thereby. See act May 17, 1926 (44 Stat. 562; 10 U.S.C. 1351; M. L., 1939, sec. 994).
- (f) Licenses. The Secretary of War may, by revocable license terminable at his discretion as the public interest may require, grant to private interests the temporary use of real estate belonging to the United States which is under his control and which is not for the time being required for public use, provided such license conveys no interest therein and such use does not conflict with the purpose for which the property is held. (See Dig. Op. JAG, 1912, p. 950), As a matter of policy, the term of such licenses will be limited to 5 years.
- (g) Ferries, bridges, livestock. The Secretary of War may permit the landing of ferries and erection of bridges on, and the driving of livestock across military reservations. See act July 5, 1884 (23 Stat. 104; 10 U.S.C. 1348; M.L., 1939, sec. 999).
- (h) Archaeological excavations. The Secretary of War may grant permits for the examination of ruins, the excavation of archaeological sites, and the gathering of objects of antiquity upon War Department lands, to institutions which are deemed properly qualified to conduct such examination, excavation, or gathering, subject to prescribed rules and regulations. Such examinations, excavations, and gatherings must be undertaken for the benefit of reputable museums, univerities, colleges, or other recognized scientific or educational institutions, with a view to increasing the knowledge of such objects, and the gatherings shall be made for permanent preservation in public museums. See act June 8, 1906 (34 Stat. 255; 16 U.S.C. 432; M.L. 1939, sec. 1041); and Uniform Rules and Regulations approved December 28, 1906 (Cir. 14, W.D. 1907).

- (j) American National Red Cross. The Secretary of War may grant revocable licenses permitting the erection and maintenance on military reservations by the American National Red Cross of buildings suitable for the storage of supplies available for the aid of the civilian population in case of serious national disaster, or the occupation for that purpose of buildings erected by the United States. See sec. 127a, act June 3, 1916, as amended by act June 4, 1920 (41 Stat. 785; 10 U.S.C. 1347; M.L. 1939, sec. 1000).

- (k) Young Men's Christian Association. The Secretary of War may grant revocable licenses permitting the erection and maintenance on military reservations by the Young Men's Christian Association of such buildings as their work for the promotion of the social, physical, intellectual, and moral welfare of the garrisons may require. See act May 31, 1902 (32 Stat. 282; 10 U.S.C. 1346; M.L. 1939, sec. 1001).
- (1) Temporary buildings. (§ 52.18 (d).)
- (m) Busses and taxicabs. The Secretary of War may grant revocable licenses to operate transportation facilities, by bus and taxicab to and from posts, camps, and stations. [Par. 2, AR 100-62, Sept. 15, 1942]
- § 52.7 Rights which may be granted by Secretary of the Interior. (a) Subject to the approval of the Secretary of War, the Secretary of the Interior may grant rights-of-way through military reservations for:

(a) National forests on certain military reservations were created by executive orders pursuant to the provisions of section 9 of the act approved June 7, 1924 (43 Stat. 655; 16 U.S.C. 471), which provides for administration by the Secretary of Agriculture under such rules and regulations and in accordance with such general plans as may be jointly approved by the Secretary of Agriculture and the Secretary of War, for the occupation and protection of such lands and for the sale of products therefrom, subject to the unhampered use by the War Department

for purposes of national defense and without affecting or restricting the authority over such lands for such purposes now vested in the Secretary of War. See sec. 9, act June 7, 1924 (43 Stat. 655; 16 U.S.C. 471, 505; M.L. 1939, secs. 992 and 995).

See act July 11, 1919 (41 Stat. 129; 10 U.S.C. -1263). [Par. 6, AR 100-62, Sept. 15, 1942]

§ 52.11 Limitations on rights which may be granted.—(a) Consideration. (1) Unless otherwise provided by law, leases of buildings and properties of the United States shall be for a money consideration only, and there shall not be included in the lease, any provision for the alteration, repair, or improvement of such buildings or properties as a part of the consideration for the rental to be paid for the use and occupation of the same. See sec. 321, act June 30, 1932 (47 Stat. 412; 40 U.S.C. 303b) But leases made under the authority contained in act July 2, 1940 (54 Stat. 712) or in Second War Powers Act, 1942 (Public Law 507, 77th Cong.), are not subject to this restriction. See § 52.6(a).

(2) The consideration provided for in leases must be adequate.

(3) The consideration payable under temporary grants other than leases may consist of either money or some direct or indirect adequate benefit to the United States.

(b) Competitive conditions. It is the policy of the War Department to recommend the granting of leases to the highest responsible bidder, after advertising for bids, unless competition is impracti-

(c) Private use. It is the policy of the War Department not to permit the use of public quarters by organization or societies other than those of a purely military character, nor to permit private uses of military reservations or parts thereof to the exclusion of the general public, nor to grant licenses or other instruments for the establishment at military posts of activities, the revocation of which may prove embarrassing to the War Department. [Par. 7, AR 100-62, Sept. 15, 1942]

Rights which cannot be granted without specific statutory authority. Except when specifically authorized by Congress, the Secretary of War is without authority to grant an interest in real estate of the United States for any of the following purposes:

(a) Cutting of grass or gathering of fruit, except as incident to a lease.

(b) Mining.

(c) Quarrying of rock, sand, or gravel, or sale, thereof.

(d) Cutting of timber, or sale thereof. See R.S. 1241 (10 U.S.C. 1261; M. See Dig. Op., JAG 1912, p. 959; Dig. Op., JAG 1912-40, sec. 2017 (3).

[Par. 8, AR 100-62, Sept. 15, 19421

§ 52.13 Forms to be used—(a) Applications for leases, easements, licenses, and permits. Applications ordinarily will consist of a simple written request, and no particular form is required.

(b) Form of instruments. Instruments will be prepared on forms prescribed by the Chief of Engineers. [Pars. 10 and 11, AR 100-62, Sept. 15, 1942]

§ 52.14 Payments. The initial payment made by private interests for privileges granted by leases, licenses, easements, or permits, will be collected at the time the instrument is signed by the grantee and, in order to avoid undue delay in cashing checks and drafts, will be promptly turned over to the nearest disbursing officer or agent officer with a request that the proceeds therefrom be placed in his special deposit account pending final disposition of the instrument by the Chief of Engineers and notification from the Chief of Finance for the disposition of the collection. The Chief of Engineers will be informed by his real estate representative of the collection of the initial payment. All deferred payments on instruments which provide for a fixed rental will be made payable to the Treasurer of the United States, and forwarded by the grantee direct to the Chief of Finance, or to representatives designated by him. All deferred payments on instruments which do not provide for a fixed rental and all payments for temporary storage will be collected by the authorized representative of the Chief of Engineers and turned over to the nearest disbursing officer or agent officer, [Par. 12, AR 100-62, Sept. 15, 1942]

Where the revocation or termination of a grant is in contemplation, collections of rental will be made only to the effective date of such revocation or termination, and temporarily placed in the special deposit account. [Par. 14, AR 100-62, Sept. 15, 1942]

§ 52.16 Revocation of grants—(a) When permissible; by whom revoked. All grants or rights for the temporary use of real estate by private interests are subject to revocation at will by the Secretary of War, except as follows:

(1) Rights-of-way granted by the Secretary of the Interior (§ 52.7 (a)) are revocable by him at his discretion.

(2) Rights-of-way granted for the purpose specified in § 52.6 (e) are not revocable, but may be terminated for nonuse or abandonment.

(3) Unless specific provision for revocation is made therein, permits of the character specified in § 52.6 (d) and § 52.6 (h) constitute easements upon and across said reservations and are not revocable.

(4) Leases of property, acquired for storage purposes since April 6, 1917, granted after determination that such property is no longer required for public use, are not revocable unless the lease so

provides.

(b) When and by whom recommended. Any officer becoming aware of any facts or receiving any information indicating that the interest of the United States requires the revocation of an existing grant, lease, license, permit, or privilege will immediately report the facts, or transmit the information, together with his remarks and recommendations to the Chief of Engineers, through the division engineer.

(c) Instruments of revocation; by whom prepared; how disposed of. If revocation is determined upon, the Chief of Engineers will prepare the necessary instruments of revocation and transmit them to the commanding officer concerned, together with instructions for the necessary action. AR 35-7220—Claims in Favor of the United States on Account of Damages to Government Property.

### [Par. 1, AR 100-64, Sept. 29, 1942]

(b) Action to be taken by claimant (1) The claimant will be required to submit a statement, over his signature and address, setting forth all the facts and circumstances in connection with the premises and the occupancy thereof, by virtue of which the claim is said to have accrued; the nature and extent of any damages thereto; how and by whom caused, if known; and the cost of repairs of replacement.

(2) This statement will be accompanied by such evidence as is available, including a receipt for the payment of repairs of replacement, if made, or an estimate of the cost thereof. [Par. 2, AR 100-64, Sept. 29, 1942]

(c) Claims; where referred. All claims will be referred to the commanding officer of the post, camp, station, or other military establishment within which, or most adjacent to which, the loss or damage occurred. [Par. 3, AR 100-64, Sept. 29, 1942]

(d) Investigating boards. (a) The commanding officer to whom the claim is referred will convene a board of one or more officers or civilian employees of the War Department.

(2) The board will investigate the

claims, and report:

(i) Circumstances under which the claim accrued, or the occupancy of the premises occurred.

(ii) Date of the beginning of such occupancy, and the date of the vacation of the premises.

(iii) Nature and extent of the damage, and the fair rental value of the premises for the purpose to which they were put.

(iv) Cause of the damage, that is, whether due to accident, or to fault on the part of any officer or agent of the United States or any other person, or were the necessary result of occupancy of the premises.

of the premises.

(v) Estimated cost of restoring the premises to substantially the condition in which they were before they were so occupied, or before the damage occurred, and the value of any permanent improvements made by the Government to the premises during such occupancy, and appropriate deductions therefor.

(vi) Amount of any salvage value realized, the amount of any insurance actually collected from any insurer, and the fair salvage value of any improvements installed upon the premises during

such occupancy.

. (3) Boards investigating such claims will not undertake negotiations for the settlement thereof, but will confine their reports to findings of the facts and to recommendations as to appropriate settlements to be made in the interest of the United States.

(4) The board will reduce to writing all pertinent evidence submitted in behalf of the claimant and of the Government, and will transmit a complete transcript thereof with its report, certified as correct by the senior member of the board.

(5) When practicable, testimony will be secured verbally by questions and answers rather than by written depositions, but additional or supplementary proof will be secured when deemed necessary.

(6) The board will require the claimant to state in writing whether he will or will not accept the award, and if not his reasons—therefor. This statement will be made a part of, and forwarded with, the recommendation as to the award.

(7) The action required of the board by the preceding provisions of this paragraph must not be confused with the inspection required by § 52.4 (e), which is separate and distinct therefrom, and the result of which should be included in evidence on which the findings of the board are based. [Par. 4, AR 100-64, Sept. 29, 1942]

(e) Action by commanding officer and higher authority. (1) The commanding officer convening such board will recommend approval or disapproval of its proceedings, or make such other recommendation as he may deem proper, and before forwarding the proceedings will exercise the utmost care that the findings of the board are complete, that the

facts and evidence are clearly stated, and that the report contains all the essential facts and evidence.

(2) All claims and proceedings of boards with reference to claims will, after action by the commanding officer, be forwarded to the division engineer, who will transmit the claims and proceedings, together with his remarks and recommendations, to the Real Estate Claims Board in the office of the Chief of Engineers for examination, recommendation, and reference to the Chief of Finance for review and administrative action. [Par. 5, AR 100-64, Sept. 29, 1942]

(f) Conditions precedent to payment. There are three conditions which must be fulfilled before payment from the appropriations applicable to that purpose of claims for damages arising out of the use and occupancy of real estate:

(1) The damages must have been ascertained by the War Department,

(2) The claimant must accept in full satisfaction of his claim, the amount so awarded, approved, and recommended, and execute a clear and complete release discharging the United States from any and all claims arising out of the use and occupancy of the premises.

(3) The settlement must be made by the General Accounting Office, Claims Division. [Par. 6, AR 100-64, Sept. 29,

1942]

PART 1049—INCAMPESCENT, FLUORESCENT
AND OTHER ELECTRIC DISCHARGE
LAMPS

[Interpretation 1 to Supplementary Limitation Order L-23-a]

The following interpretation is hereby issued by the Director General for Op-

<sup>&</sup>lt;sup>1</sup> Supra.

erations with respect to § 1049.2, Supplementary Limitation Order L-28-a,1 issued September 17, 1942:

In Schedule A of Supplementary Limitation Order L-28-a it is stated that a manufacturer may use "only one type of base" for lamps appearing on a single line of the schedule. To conform to this restriction a manufacturer may not vary the design or shape of any base, but he may vary its material content. Thus, as far as Order L-28-a is concerned, bases which are made of brass are considered to be of the same "type" as those made of plated steel, plastics or any other material, provided they are of the same design, shape and size. It should be noted, however, that the production of brass bases is controlled by the terms of General Limitation Order L-28, as Amended October 24, 1942.

Order L-28-a, in paragraph (b) (1) (iii), states that on and after November 1, 1942, no manufacturer may mark on any incandescent, fluorescent or glow discharge lamp any "trade mark or identification of any person other than himself or another manufacturer". This provision does not prohibit a manufacturer from using more than one trade mark to identify his own product. But in any case where the trade mark is used primarily to identify a purchaser (who is not himself a manufacturer) of the lamps rather than the lamp manufacturer, such trade mark may not be etched or otherwise marked on a lamp after October 31, 1942.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Amendment 2 to Priorities Regulation 11. as Amended October 3, 1942]

PRODUCTION REQUIREMENTS PLAN

Priorities Regulation 11 1 (§ 944.32) is hereby amended as follows:

1. Paragraph (b) (7) is hereby amended to read as follows:

"Supplies" means maintenance and repair materials and operating supplies. It also includes minor items of productive capital equipment (such as jigs and fixtures, dies and die blocks, portable pneumatic or portable electric tools, and material required for minor relocations of plant machinery and equipment). It does not include any production material or any office machinery or office equip-

- ment (whether purchased or leased) or materials for plant expansion or plant construction.
- 2. Paragraph (c) is hereby amended to read as follows:
- (c) Persons required to qualify under PRP. Every Class I producer shall file a PRP application. For the first quarter of 1943, this application shall be filed not later than October 25, 1942. Any person who becomes a Class I producer shall file such application as promptly as possible after becoming a Class I producer. The Director General for Operations may specifically require other persons to file such applications from time to time, and may also exempt particular Class I producers from the requirements of this paragraph or extend or advance their time for filing PRP applications. Any other processors of materials desiring priority assistance on a quarterly basis may also, with the consent of the Director General for Operations, qualify under the Production Requirements Plan, although not required to do so by this regulation.
- 3. Paragraph (d) (2) is hereby amended by adding after the opening words of the first sentence reading "During the fourth quarter of 1942," the following words "but not thereafter,".
- 4. Paragraph (d) (5) is hereby amended to read as follows:
- (5) In case preference rating assistance for a material is denied on the PRP certificate on the express ground that such assistance is unnecessary or that ratings for such material are not currently being assigned on PRP certificates, the provisions of this paragraph (d) shall not apply to such material.
- 5. Paragraph (e) (3) is hereby amended to read as follows:
- (3) Any PRP unit which has applied ratings under the interim procedure specified in paragraph (i) of this regulation based on a particular PRP application may, until receipt of that particular PRP certificate, accept deliveries of the quantities of the materials to which it is authorized to apply ratings under the interim procedure. After receipt of such PRP certificate it may accept deliveries of listed materials and listed fabricated items in excess of the quantities authorized on such certificate only if the same were in transit to the PRP unit at the time its supplier received notice of postponement or cancellation of delivery pursuant to the provisions of paragraph (i) of this regulation and even then may not accept delivery of such materials or items unless shipment was made within ten days (including Sundays) after receipt by the PRP unit of the PRP certificate which necessitated such postponement or cancellation.

- 6. Paragraph (e) is further amended by adding the following subparagraphs (4) and (5) at the end thereof:
- (4) A PRP unit may accept delivery of material to which it extends an AAA rating in accordance with the provisions of paragraph (d) (6) of this regulation.
- (5) A PRP-unit may accept delivery of listed materials or listed fabricated items in excess of the quantities authorized on its PRP certificates, to the extent that cancellation or postponement of such delivery is waived by the provisions of paragraph (j) (3) of this regulation.
- 7. Paragraph (i) is hereby amended to read as follows:
- (i) Interim procedure. During the interim between filing a PRP application for a particular quarter and receipt of the PRP certificate for such quarter a person may apply or extend preference ratings for delivery during such quarter, and, in case he shall have submitted advance quarter applications, may apply or extend preference ratings for delivery during only the first advance quarter, is follows:
- (1) If he has been operating under the Production Requirements plan, he may apply the same preference ratings he was authorized to apply by his PRP certificates for the preceding quarter, to orders calling for delivery of not more than 40% during the first month of the quarter and 70% during the entire quarter, of the quantities of the materials indicated as his anticipated requirements on his PD-25A and on any PD-25F application for the quarter, submitted prior to receipt by him of the first PRP certificate received by him for the quarter.
- (2) If he has not been operating under the Production Requirements Plan, he may continue to apply and extend ratings under any applicable preference rating orders or preference rating certificates in the same manner as permitted prior to the beginning of the particular quarter; and, notwithstanding the termination of any preference rating order on or after the end of the preceding quarter, the same shall be deemed to continue in effect as to any such person until he receives his PRP certificate: Provided, however, That he shall not apply or extend ratings to the delivery in the particular quarter of any material in an aggregate quantity greater than 40% during the first month of the quarter, nor greater than 70% during the entire quarter, of the amount of such material which he has indicated as his anticipated requirements on his PRP application for the quarter, subject to any further restrictions contained in the preference rating certificates or orders assigning the ratings which he is applying or extending.
- (3) After a person has received an advance quarter authorization, he may not

<sup>&</sup>lt;sup>1</sup>7 F.R. 7888, 8864.

thereafter apply ratings under the interim procedure to deliveries in that advance quarter of any materials included in the authorization for that quarter, until he files a complete PD-25A application for such quarter, but must use only the ratings authorized on advance quarter authorizations for such materials in that quarter. Upon the filing of a complete PD-25A application for a quarter a PRP unit may then rate purchase orders in accordance with the interim procedure even if this permits rating quantities in excess of those authorized by a previous advance quarter authorization for that quarter.

(4) A person who applies or extends any preference rating pursuant to this paragraph (i) shall deduct the amount of any material which he has received or to which he has applied or extended such rating from the amount rated or otherwise authorized by his corresponding PRP certificate (on Form PD-25A or PD-25F, as the case may be) when issued

to him.

8. Paragraph (j) is hereby amended to read as follows:

- (j) Rerating on receipt of PRP cer-- tificates. (1) Each PRP unit, not later than the seventh day (including Sundays) after the receipt of any PRP certificate for a quarter, shall adjust its outstanding purchase orders so that they shall not exceed, either in quantities or in grades of preference rating, those authorized for the quarter and for any advance quarters covered by the PRP certificates in accordance with the provisions of this regulation; but this provision shall not require the adjustment of orders duly placed under paragraph (i) of this regulation for materials covered by a PD-25F application filed before receipt of a PD-25A certificate, until the return of such PD-25F certificate.
- (2) This adjustment may be made by cancellation, postponement of deliveries, or by rerating. To the extent that authorized ratings are higher than those already applied to outstanding orders, rating adjustment shall be optional, and, with respect to any material, the balance of any authorized rating not used may be added to the authorized amount of any lower authorized rating.
- (3) No person shall be required by the provisions of this paragraph (j), however, to cancel any order or portion thereof calling for delivery on or before November 21, 1942, or during the first wenty-one days of the first month of any subsequent quarter, of any listed material, if the producer thereof certifies in writing to such person (i) that substitution of other orders, or diversion of the material to fill other orders, (even if such other orders call for later delivery or carry a lower rating) is impossible, and (ii) that the production of such material has been completed or that cancellation

would disrupt the producer's production schedules and result in substantially diminished production. Nothing herein contained, however, shall relieve a PRP unit from the obligation of cancelling or postponing delivery under other orders calling for delivery of similar material during the quarter, as to which no certification is received, to the extent necessary to bring the total receipts of such material during the quarter within the quantities authorized on its PRP certificates.

- 9. Paragraph (k) is hereby amended to read as follows:
- (k) Restrictions on Class I producers who have not filed PRP applications. Any Class I producer who has not filed his PRP application by the time required by this regulation or by any specific direction of the Director General for Operations may not extend or apply any rating, other than AAA ratings, until he has mailed or personally submitted his PRP application to the War Production Board: Provided, however, That these restrictions do not apply to ratings specifically assigned to a Class I producer for the purpose of acquisition of items of capital equipment, or materials for authorized plant expansion or plant construction.
- 10. The following new paragraphs (n) and (o) are added:
- (n) Reporting of excess receipts. Any PRP unit which receives during a quarter any listed material other than, or in excess of, quantities of such material authorized by its PRP certificates for such quarter, or by specific authorization of the Director General for Operations, shall promptly report to the Production Requirements Branch, War Production Board, Washington, D. C., the quantities and kinds of materials so received, together with a statement of the reasons why such receipt was necessary, referring to the provisions of this regulation under which such receipt is permitted, and giving the name and serial number of the PRP unit which received the material.
- (o) Exceptions or exemptions. The Director General for Operations may grant exceptions or exemptions with respect to any or all provisions of this regulation. Any such action shall be in writing over the signature of the Director General for Operations and shall refer specifically to the fact that it is an exemption from or an exception to this regulation.
- 11. Paragraph (a) (1) of the metals list attached to Priorities Regulation No. 11 is hereby amended to read as follows:

Iron Carbon steel Alloy steel Stainless steel Aluminum Magnesium Copper Brass Bronzo Lead (including antimonial)

Zinc Cadmium

Nickel Silver

Tin Tantalum metal

Cupro-nickel Tungsten carbide

12. Paragraph (a) (2) of the metals list attached to Priorities Regulation No. 11 is hereby amended by adding at the end therebf but within the parenthesis the following words "but not including insect wire screen cloth".

> PART 1340—FUEL [MPR 122,1 Amendment 11]

#### SOLID FITELS

Solid fuels delivered from facilities other than producing facilities-dealers.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.\*

In § 1340.258 (a), a new subparagraph (11) is added; in § 1340.261 (d), new subparagraphs (3) and (4) are added and subparagraphs (1) and (2) are amended to read as set forth below:

§ 1340.258 Definitions. (a) When used in this Maximum Price Regulation No. 122, the term:

\* 0

(11) "Appropriate regional office" means the regional office of the Office of Price Administration for the area in which is located the seller's place of business from which the solid fuel is offered for sale.

§ 1340.261 Appendix A: Maximum prices for solid fuels delivered from facilities other than producing facili-

(d) (1) If the seller's maximum price cannot be determined under paragraphs (a), (b) and (c) of this section, the seller's maximum price shall be the maximum price of his most closely competitive seller carrying on a business of the same character (wholesale or retail; equipped or unequipped) in the same locality. This shall be the maximum price for the sale of:

(i) The same size, kind and quality of solid fuel:

(ii) In similar quantities; (iii) To purchasers of the same class (e.g., domestic, commercial, industrial);

(iv) By the same method of delivery (e. g., truck, rail, etc.); and

17 F.R. 3239, 3666, 3856, 3940, 3941, 5024, 5567, 5835, 7809, 8996, 8949, 8948.

(v) Under the same terms of delivery (e.g., delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock, or terminal facilities, etc.).

Within ten days after a maximum price is determined under the provisions of this subparagraph, the maximum price so determined shall be reported by the seller to the appropriate regional office of the Office of Price Administration, together with the name and address of the seller's most closely competitive seller; the name, if any, by which such competitive seller identifies the solid fuel involved; the name, if any, by which the solid fuel is identified by the seller determining his maximum price under this subparagraph and a statement of the reasons why a maximum price for sales thereof cannot be determined under paragraphs (a), (b) and (c) of this section.

(2) If the seller's maximum price cannot otherwise be determined under this section, the seller's maximum price shall be a price not in excess of the sum of the per net ton cost of such solid fuel f. o. b. transportation facilities at supplier's shipping point, plus the actual cost incurred in transporting such solid fuel to the seller's yard, dock or other terminal facility and plus the margin over delivered cost obtained on the seller's similar sale of solid fuel most nearly like the sale of solid fuel for which a maximum price, is computed under this subparagraph, taking into account similarity in:

(i) Size, kind and quality of solid fuel;

(ii) Quantity of solid fuel;

(iii) Class of purchasers (e. g., domestic, commercial, industrial);

(iv) Mèthod of delivery (e. g., truck, rail, etc.);

(v) Terms of delivery (e. g., delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock,

or terminal facilities, etc.).

Within ten days after the seller determines the maximum price for the sale of such solid fuel under the provisions of this subparagraph, he shall report to the appropriate regional office of the Office of Price Administration the maximum price so determined, together with the computations made by him in determining such maximum price and a statement of the reasons why a maximum price for such solid fuel could not otherwise be determined under this section.

(3) If the seller's maximum price for a particular size, kind and quality of solid fuel cannot be determined under this section by reason of the fact that the seller had no sale of solid fuel which can reasonably be considered similar

within the meaning of paragraph (d) (2), his maximum price shall be the price established by the appropriate regional office of the Office of Price Administration. Such seller shall file an application with such regional office of the Office of Price Administration setting forth:

(i) The size, kind and quality of the

solid fuel involved;

(ii) The name of the producer and the origin of such solid fuel, or in the case of bituminous coal, the price classification, size group and mine index number as set forth in the minimum price schedules established by the Bituminous Coal Division of the United States Department of the Interior:

(iii) The per net ton price f. o. b. transportation facilities at supplier's shipping

point:

(iv) The transportation costs incurred in transporting such solid fuel to the seller's yard, dock, or other terminal facility;

(v) A proposed schedule of prices for sales to each class of purchaser involved, stating proposed variations in price for different quantities, methods and terms of delivery;

(vi) The margin over delivered cost on his sales of solid fuel serving the same purpose:

(vii) Such additional pertinent information as the regional office of the Office of Price Administration may require.

Each Regional Administrator is authorized to establish maximum prices under this subparagraph in line with the level of maximum prices established by this Maximum Price Regulation No. 122,

(4) For the purposes of this paragraph, the term "margin over delivered cost" means the difference between (1) the cost per net ton f. o. b. transportation facilities at supplier's shipping point, determined by the most recent purchase of such solid fuel, plus the actual cost incurred in transporting such solid fuel to the seller's yard, dock or other terminal facility and (ii) the maximum price for the sale of such solid fuel under the provisions of this section.

§ 1340.260a Effective dates of amendments.

(k) Amendment No. 11 (§§ 1340.258a, 1340.261 (d) (1), (2), (3) and (4)) to Maximum Price Regulation No. 122 shall become effective November 13, 1942.

# PART 1381-SOFTWOOD LUMBER [MPR 161, Amendment 4]

WEST COAST LOGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.\*

Subparagraphs (11) (iii) and (13) of § 1381.158 (a) are amended; paragraphs (b), (c), and (e) of § 1381.160 are amended; and a new paragraph (d) is added to § 1381.159a as set forth below:

§ 1381.158 Definitions. (a) When used in this Maximum Price Regulation No. 161, the term: \*

(11) "District" means any one of four districts, as follows: \*

(iii) Columbia River district, including the counties of Wahklakum, Cowlitz, Clark, and Skamania in the State of Washington, and Clatsop, Columbia, Washington, Multnomah, and Clackamas in the State of Oregon.

· (13) "Delivered" means: •
(i) Boomed and rafted and prepared for towing when the logs are delivered to any towable waters; or

(ii) Dumped in the mill pond at the buyer's manufacturing plant where rafting is not required; or

(iii) Loaded on a railroad car.

§ 1381.160 Appendix A: Maximum delivered prices for West Coast logs. \* \* \*

(b) The maximum delivered prices per 1,000 ft. log scale for West Coast Logs

delivered at any other point than the waters named or the buyer's manufacturing plant shall be determined as

(1) From the prices in paragraph (a) of this section, subtract the transportation costs, including booming and rafting charges, which would have been applicable to the shipment had it moved from the spar-tree to the waters of the particular district;

(2) Then add actual transportation costs from the spar-tree to the destination specified by the purchaser, including any cost of loading on cars or dumping in a mill pond. For the purpose of this subparagraph (2), delivery at the spar-tree shall be considered as a violation of this Maximum Price Regulation 161 since the seller must make delivery either to towable waters (including booming and rafting), or to the mill pond of the buyer's plant, or to a railhead (including loading on cars).

Regardless of the result of the above computation, the prices shall in no event exceed the prices set forth in paragraph (a) of this section applicable to deliveries into the waters of Puget Sound, Willapa Bay and Grays Harbor, and the Columbia River.

(c) The maximum delivered prices per 1,000 ft. log scale for West Coast logs delivered at any point in the Willamette Valley district shall be determined as follows:

(1) From the prices set forth in paragraph (a) of this section for delivery in the Columbia River district, subtract the transportation costs, including booming and rafting charges, which would have been applicable to the shipment had it moved from the spar-tree to the waters of the Columbia River district;

(2) Then add actual transportation costs from the spar-tree to the destination specified by the purchaser, including any cost of loading on cars, dumping in a mill pond, or booming and rafting in the Willamette River. For the purpose of this subparagraph (2), delivery at the spar-tree shall be considered as a violation of this Maximum Price Regulation 161 since the seller must make delivery either to towable waters (including booming and rafting), or to the mill pond of the buyer's plant, or to a railhead (including loading on cars).

Regardless of the result of the above computation, the prices for the Willa-mette Valley district shall in no event exceed the prices set forth in paragraph (a) of this section for delivery in the Columbia River district. Further, if such computation results in a maximum price which is \$3.50 or more-below the Columbia River district price, the maximum price shall be a price \$3.50 below the Columbia River district price.

(e) °

(2) Not later than the 15th of October, 1942, and the 15th of every month thereafter in which the overtime addition is claimed, the company must file a certified statement with the Office of Price Administration, Washington, D. C., containing the following:

<sup>\*</sup>Copies may be obtained from the Office of Price Administration.

(i) A statement that the required hours prevailed during the preceding month;

(ii) The company's production figures, log scale, by species, for the month;

(iii) The amount of logs by species, both log scale and total value, sold during the month on which the overtime ad-

dition was claimed;
(iv) The amount of logs, log scale, by species, used in the seller's own mill.

§ 1381.159a Effective dates of amendments. \* \*

(d) Amendment No. 4 (§§ 1381.158 (a), 1381.159a, and 1381,160 (e)) shall become effective November 20, 1942.

LUGGAGE, LEATHER GOODS, BELTS AND WOMEN'S HANDBAG INDUSTRY

#### MINIMUM WAGE RATES

Notice of opportunity to show cause in the matter of the determination of the prevailing minimum wage in the luggage, leather goods, belts, and women's handbag industry.

bag industry. Whereas, the prevailing minimum wage determination for the Luggage and Saddlery Industries, issued by the Acting Secretary of Labor on July 12, 1938, pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, sec. 35), as amended on September 26, 1939, provides that the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of that Act. for the manufacture or supply of luggage, including mail satchels or pouches, and carrier's tie straps and leather pouches (consisting of a leather pouch or pocket of holster type with belt loop used for carrying pliers and knife), shall be 40 cents an hour for the States of Maine, New Hampshire. Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Maryland, Delaware, Washington, Oregon, California, Idaho, Nevada, Arizona, Montana, Wyoming, Utah, Colorado, and New Mexico and 37½ cents an hour for the other twenty-six States and the District of Columbia; and

Whereas the Administrator of the Wage and Hour Division issued on July 1, 1942, pursuant to the Fair Labor Standards Act of 1938, a wage order effective July 27, 1942, providing that wages at the rate of not less than 40 cents an hour shall be paid by every employer to each of his employees who is engaged in commerce or in the production of goods for commerce in the Luggage, Leather Goods, and Women's Handbag Industry, and defining that industry as follows:

(a) The manufacture from any material of luggage including, but not by way of limitation, trunks, suitcases, traveling bags, brief cases, sample cases; the manufacture of instrument cases covered with leather, imitation leather, or fabric including, but not by way of limitation, portable radio cases; the manufacture of small leather goods and like articles from any material except metal; the manufacture of women's, misses',

and children's handbags, pocketbooks, purses, and mesh bags from any material except metal; but not the manufacture of bodies, panels, and frames from metal, wood, fiber, or paper board for any of the above articles.

(b) The manufacture from leather, imitation leather, or fabric of cut stock and parts for any of the articles covered in paragraph (a) of this section;

and

Whereas the Luggage, Leather Goods, and Women's Handbag Industry, as so defined, includes within its scope substantially all the products covered by the prevailing minimum wage determination for the Luggage and Saddlery Industries, and it appears desirable, for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act, to adopt the definition contained in the Luggage, Leather Goods, and Women's Handbag Wage Order for the purposes of this wage determination; and

Whereas it appears desirable to extend the proposed wage determination to articles which are subject to the wage order of the Administrator of the Wage and Hour Division for the Belts Division of the Apparel Industry, effective July 15, 1940, establishing 40 cents an hour as the minimum wage to be paid to employees in the manufacture of men's, boys', women's, misses' and children's separate belts from leather, imitation leather, or other material or fabric who are engaged in commerce or in the production of goods for commerce; and

Whereas it appears that substantially all employees subject to the proposed wage determination for the Luggage, Leather Goods, Belts, and Women's Handbag Industry are engaged in commerce or in the production of goods for commerce, as that term is defined in the Fair Labor Standards Act of 1938, and that, consequently, the aforementioned wage orders of the Administrator for the Luggage, Leather Goods, and Women's Handbag Industry and for the Belts Division of the Apparel Industry have the effect of establishing a minimum wage of not less than 40 cents an hour in the Luggage, Leather Goods, Belts, and Women's Handbag Industry as defined in the proposed wage determination: and

Whereas it appears desirable for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act to provide that apprentices and learners may be employed under the proposed determination at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division (Regulations, Ti. 29, c. V, Parts 521 and 522, respectively).

Now, therefore, notice is hereby given to all interested parties of the opportunity to show cause on or before December 3, 1942, why the Secretary of Labor should not make a determination pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, 35), that the prevailing minimum wage for persons employed in the Luggage, Leather Goods, Belts, and Women's

Handbag Industry is not less than 40 cents an hour or \$16 per week of 40 hours, arrived at either upon a time or piecework basis, provided that apprentices and learners may be employed in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938, and defining the Luggage, Leather Goods, Belts, and Women's Handbag Industry, for the purposes of this determination, as follows:

(a) The manufacture from any material of luggage including, but not by way of limitation, trunks, suitcases, traveling bags, brief cases, sample cases; the manufacture of instrument cases covered with leather, imitation leather, or fabric including, but not by way of limitation, portable radio cases; the manufacture of small leather goods and like articles from any material except metal; the manufacture of women's, misses', and children's handbags, pocketbooks, purses, and mesh bags from any material except metal; but not the manufacture of bodies, panels, and frames from metal, wood, fiber, or paper board for any of the above articles.

(b) The manufacture from leather, imitation leather, or fabric of cut stock and parts for any of the articles covered in paragraph
(a) of this section.

(c) The manufacture of men's, boys', women's, misses', and children's separate belts from leather, imitation leather, or other material or fabric.

All objections, protests, or any statements in opposition to or in support of the proposed amendments should be addressed to the Administrator, Division of Public Contracts, Department of Labor, Washington, D. C., and should be filed with the Administrator not later than December 3, 1942.

Dated: November 12, 1942.

The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator, It is hereby determined that:

(a) Respondent operates a filling station at 428 First Avenue, West Haven, Connecticut, known as Eddie's Service Station, at which station gasoline is regularly transferred to consumers.

(b) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, in that at divers times between July 22 and September 22, 1942, respondent sold and transferred gasoline to consumers in exchange for gasoline ration coupons Class A, No. 2.

Because of the great scarcity and critical importance of gasoline in Connecticut, violations of Ration Order No. 5A, Gasoline Rationing Regulations, have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses, in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) During the period in which this Suspension Order shall be in effect,

(1) Respondent shall not sell, transferor deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to

respondent for resale.

(d) Any terms used in this Suspension Order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

This Suspension Order No. 160 shall become effective 12:01 A. M. November 18, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 18, 1942.

S. W. Duke, doing business as Duke Oil Company, Bremen, Georgia, herein called respondent, was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing upon the charges was held on October 9, 1942, in Bremen, Georgia. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The

matter having been duly considered by the Deputy Administrator in Charge of Rationing, It is hereby determined that:

(a) Respondent is a dealer in gasoline within the meaning of Ration Order IIo. 5A, Gasoline Rationing Regulations, and operates a filling station at Bremen, Georgia.

E. Deaton, and into the fuel tank of a motor vehicle in exchange for gasoline ration coupons (Class S) from a coupon book that was not issued for and did not bear the identification of the vehicle into which the transfer was made.

(e) The foregoing transfers by respondent were not within the classes of transfers of gasoline permitted by the provisions of Ration Order No. 5A to be made without the exchange of gasoline

ration coupons.

Because of the great scarcity and critical importance of gasoline in Georgia, the violations of the gasoline rationing regulations by respondent have resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing, that further violations of the gasoline rationing regulations by respondent are likely unless appropriate administrative action is taken.
